

Notification of APP on infringement of user rights (first batch)

Release time: December 19, 2019

Source: Communications Administration

According to the requirements of the *Notice of the Ministry of Industry and Information Technology on the Implementation of the Special Rectification Work on APP Infringing on the Rights and Interests of Users*, the Ministry of Industry and Information Technology has steadily advanced the special rectification action on APP infringing on the rights and interests of users in accordance with plans, phases and steps. The special action has received widespread attention from the society and the high attention of related companies, and achieving positive results in strengthening the protection of personal information of users. A total of more than 8,000 APP completing rectification have been completed during the self-inspection and self-correction phase. During the supervision and inspection phase, the Ministry of Industry and Information Technology organized a third-party inspection agency to inspect the major application store APP, and supervise and rectify more than 100 enterprises with problems.

As of now, there are still 41 types of APP that have problems such as illegal collection and use of user personal information, unreasonable requests for user permissions and obstacles to user account logout (see the attachment for details) without completed rectification. The above-mentioned APP should complete the rectification and implementation before December 31. If the rectification is overdue, the Ministry of Industry and Information Technology will organize relevant disposal in accordance with laws and regulations.
